

730 Service

730 Service

Based on its experience in the management of the income of employed and self-employed workers, [ArlatiGhislandi](#) has implemented a service to manage 730 declarations which consists of two different “advisory products”:

- **730 - tax advice**, managed entirely through the support of a qualified tax advisor: the earner is fully supported by the Advisor in the completion of the Declaration;
- **730 - direct assistance**, entirely managed by our IT support: the taxpayer may use our online software to fill in the statement to be submitted to *Agenzia delle Entrate*.

730 is a two-tier advisory solution that provides the employer with comprehensive support tailored to the needs and abilities of its employees or collaborators by facilitating or eliminating the complex bureaucratic formalities and ensuring the correctness of the result.

The service is:

MODULAR

The employer and earner can choose the method of assistance and then manage the declarations on their own or with advisory support, also depending on their complexity.

MODERN

Web-based support allows earners to manage their declarations on their own but, if necessary, they can make use of professional helpdesk services provided by the Studio.

GUARANTEED

Specific help and advice relieves the employer and earner of having to know the intricacies of the Italian tax system, making it easier to manage and send declarations to the Italian Revenue Agency.

DIRECT ASSISTANCE

TAX ADVICE

Earners use an on-line procedure that already contains their data managed by the employer and integrates them with the other elements in their possession.

Earners are fully supported in the management of the declaration through a session with a qualified tax advisor.

- TELEPHONE ASSISTANCE FOR FORMAL PROBLEMS RELATING TO THE DECLARATION
- TELEPHONE ASSISTANCE FOR PROCEDURAL PROBLEMS
- TELEPHONE ASSISTANCE FOR IT PROBLEMS

- ON-SITE SESSIONS WITH AN ADVISOR
- TELEPHONE SESSIONS FOR ANY FOLLOW-UPS
- SUBMISSION OF DECLARATION TO THE ITALIAN REVENUE AGENCY

Possible switch

ArlatiGhislandi and AGCV Risorse

Established in 1967, ArlatiGhislandi is a reference in Italy for tax and labor advice, for HR management and administration, for corporate restructuring.

It has a headcount of ca. 60 people among labor consultants, chartered accountants, lawyers and *professionals* with skills ranging from employment and labor law to tax regulations.

Part of vast international networks, ArlatiGhislandi can support, in 140 Countries, first-rate companies, both domestic and international, which appreciate the high quality of advice and customization of services.

ArlatiGhislandi adopts and directly develops advanced IT solutions to fully integrate with the client's *corporate & local* structure, creating ad hoc projects tailored on their needs to offer advisory and IT solution for HR.
